

Be Sage. Build On.

Get to know Sage as a company. In this document, you'll find brief overviews of who Sage is as a company, and how our cloud products and charitable foundation champion the success of entrepreneurs, accountants, and business owners everywhere.

Who is Sage?

Sage is a global company with a local heart. A global provider of cloud technology for the entire business journey, we serve Business Builders everywhere and champion their success. As a FTSE 100 company with 14,000 colleagues across 24 countries, we do business the right way, while giving back to our local communities through the Sage Foundation.

Visit www.Sage.com to discover more about Sage as a business.

How far will you take your business?

Sage Business Cloud is a cloud technology platform that helps business owners manage and grow their businesses throughout their entire business journey. It offers purpose-built solutions and products across Accounting, Financials, Enterprise Management, People, and Payroll.

Visit www.Sage.com to see how far you can take your business with Sage Business Cloud.

Building a global foundation for change

Sage Foundation exemplifies the right way to do business by donating time, resources, and technology so non-profit organizations can help more people reach their true potential. Following a unique 2+2+2 model, Sage Foundation helps build opportunity and a better future in our local communities. This means that Sage colleagues give 2% (5 days) of their time volunteering per year. Meanwhile, the Sage Foundation donates 2% of cash flow to create opportunities for the young and disadvantaged, and donates 2 software licenses to eligible charities, social enterprises, and non-profit organizations.

Visit www.SageFoundation.com to join Sage Foundation efforts to make a difference in our local communities.

Business Cloud

How far will you take your business?

Whether you're starting a business or growing an enterprise, Sage Business Cloud is the one and only business management solution you'll ever need. With cloud products and marketplace applications that can be combined to meet your unique business needs, Sage Business Cloud helps you manage and grow your business throughout your entire business journey.

Accounting

Start managing the finances of your small business. With advancements in mobile and chatbot technology, you get day-to-day balance visibility, invoice & expense management, and next-generation, conversational accounting.

Financials

Go beyond simple accounting to build more efficiency and productivity. Seamlessly manage and scale your business in real time. Access financial reports across your business—in minutes, not days—and get powerful insights to accelerate performance, improve decision making, and grow your business.

Enterprise Management

The Sage Business Cloud Enterprise Management product is not your typical ERP solution. It's a faster, simpler, and more flexible business management solution for the globally connected enterprise in almost any industry.

People

Transform your business by revolutionizing the way you acquire, develop, and retain your top talent. Increase productivity and deliver great workforce experiences, so your people can do their best work. Automate the entire employment journey and quickly adapt to changing HR processes and new ways of working.

Payroll

The Sage Business Cloud Payroll product makes running payroll simple, secure, accurate, and compliant. Trust in a payroll software that's recognized by leading tax authorities and complies with the latest local payroll legislation across 14 countries.
